

Getting started with Kindle® Fire Devices

You can use the OverDrive app to borrow and enjoy eBooks and audiobooks from your library on your Kindle Fire, Fire HD or Fire HDX.

Step 1

Download the OverDrive app from one of the following:

- Amazon Appstore
- app.overdrive.com

Step 2

Open the OverDrive app and follow the prompts to create an OverDrive account and log in. If you are under 13, select **I am under 13 years old** instead.

Note: Only newer versions of the OverDrive app will prompt you to sign in or sign up for an OverDrive account. If you do not see these prompts, move on to Step 3. If you are using a first generation Kindle Fire, skip this step and move on to step 3.

Step 3

In the OverDrive app, find your library's OverDrive-powered website. On most Kindle Fires, you can do this by swiping from left to right to open the **Home menu**, then tapping **Add a library**. On first generation Kindles, tap the  icon (or if you do not have this icon, go to **Menu > Get Books**).

- Tap the star to save your library's website (Peninsula Library System) to your library list.
- Tap **Peninsula Library System** to start browsing.

Step 4

Log into your library's OverDrive website with your library card and borrow a title.

Step 5

Find borrowed titles under your account on your library's OverDrive website. You can:

- Download EPUB eBooks* and MP3 audiobooks directly to the OverDrive app.
- Select Kindle Book (U.S. only) to complete checkout on Amazon's website and send the book to your Kindle.
- Tap **Read** to open and read OverDrive Read eBooks right in your browser. For the best reading experience, turn off Accelerate page loading.

***Note:** If you are using a first generation Kindle Fire, you will need to authorize your device with an Adobe ID to download EPUB eBooks. It is a one-time, free process that takes just moments to complete.

Kindle ebooks require a WIFI connection for download to Kindle devices. If you do not have an available WIFI connection, you will need to transfer the title via USB.
